

Duke Dementia Evening Care Partner Support Group

An open support group meeting for care partners of persons living with a dementia diagnosis is held to offer a forum for information and mutual support

Support groups can provide participants with the empowering reminder that they are not alone in their journey.

The goal of our group is to facilitate connection, offer education, foster community, and further develop coping skills.

The Duke Dementia Evening Care Partners Support Group meets every other Thursday via a virtual platform during COVID-19.

To learn more about the group, please contact Natalie Leary at natalie.leary@duke.edu.
