

## Long-Term Care Community Support Group

This group is open to family members and friends who are caring for or supporting someone currently living in a long-term care community.

We aim to create a space where individuals, in similar situations, can come together and offer support and tips to one another. This group is not dementia specific, and is open to all regardless of diagnosis.

To learn more about the group or to be added to the email list, please contact Natalie Leary.
