

# CAREGIVER CONNECTIONS

## AN EDUCATIONAL WEBINAR SERIES

### Changes to Intimacy & Sexuality with Dementia

**Wednesday, February 24 from 10-11 AM EST**

The shifts in intimacy and sexuality that frequently accompany dementia are not often discussed with friends, family members, support group peers, or even health care providers. Our February speaker will address the changes related to sexuality that couples may face when a partner is living with dementia. Specific topics include:

- Changes in sex drive
- Changes in sexual behavior
- Changes in physical ability
- Consent
- Sex in residential care facilities

### Our Speaker:

**Alyssa Szymanski Botte, MDiv, MA, LCMHC, NCC**, is a licensed clinical mental health counselor and an ordained minister.

Alyssa worked at the Memory Counseling Program at Wake Forest Baptist Medical Center as the Dementia Education Coordinator and as a counselor for several years, and she is now in private practice at New Day High Point.

**Can't attend the live event? Don't worry, all Caregiver Connections webinars are recorded and links to presentations will be available on our [website](#), along with any mentioned handouts and information on upcoming events.**

Click on [this](#) link to access the Zoom presentation the day of the event.
