

Younger-Onset Dementia Support Group

This group is for persons diagnosed with dementia age 65 and younger and their care partners.

A diagnosis of younger-onset dementia is likely not what you had planned for at this time in your life. You will face unique challenges when it comes to family, work, finances and future care. You have the power to make a new plan and determine how you choose to live your best life with the disease.

We are currently meeting virtually. Participants are welcome to join by video on Zoom or call in by phone.

The group is open to both persons living with memory loss and care partners. Pre-registration is required for first time attendees. To learn more about the group, please contact [Janeli McNeal](#).

Details

This group meets the 2nd and 4th Tuesday of each month at 7 P.M.

2022 Schedule
