CAREGIVER CONNECTIONS
AN EDUCATIONAL WEBINAR SERIES

Medications and Dementia

Monday, January 29th at 2:00 PM EST

Dr. Parker will discuss medications for cognitive symptoms, those prescribed to slow disease progression, and those used to manage behavioral symptoms. Gain valuable insights into enhancing the quality of life for those affected by dementia.

Dr. Daniel Parker, MD, Duke Geriatrician

Dr. Parker is a geriatrician, memory disorders specialist, and physician at Duke. Dr. Parker diagnoses and manages cognitive impairment at the inter-professional Duke Memory Disorders Clinic.

His research interests center on understanding how diet and exercise improve brain health and reduce the risk of developing dementia. He enjoys building a collaborative relationship with patients and their loved ones and working with them to develop a personalized, holistic approach to their memory care.

Can’t attend the live event? Don’t worry, all Caregiver Connections webinars are recorded and links to presentations will be available on our website.

Click on this link to access the Zoom presentation the day of the event.
