Meeting ID: 965 7747 1018
Password: 3513

The management of chronic diseases, such as high blood pressure and diabetes, becomes more complex when people develop dementia. We will explore practical considerations for how patients and families living with dementia can change their chronic disease management over time.

Dr. Collin Burks, MD

Dr. Collin Burks is an Assistant Professor of Geriatrics at the Duke University School of Medicine. She primarily works at the Geriatrics Evaluation and Treatment clinic, where she enjoys developing longitudinal relationships with patients and their families.

Mark your calendars for the next Caregiver Connections webinar on **Thursday, February 27 at 1pm**, stay tuned for more information!

Can't attend the live event? Don't worry, all Caregiver Connections webinars are recorded and links to presentations will be available on our [website](#), along with information on upcoming events.
